About Me

Through my background in sales and psychology I have developed a deep interest in interpersonal relationships; my love for connecting people and helping them solve their problems is what drives me. I also recently graduated a coding trade school called Dev Bootcamp as a full stack web developer. My experiences there vastly improved my ability and desire to learn new things on the fly, and gave me a new passion for creating fun and efficient teams where people can easily communicate, collaborate, and thrive.

Experience

Full Stack Developer
Dev Bootcamp

Chicago, IL
Jan 2016 to May 2016

- Built proficiency in multiple programming languages including Ruby, JavaScript, and HTML.
- Worked individually and on teams of up to 5 to build many meaningful database-backed apps, websites, and programs.
- Came up with an idea for a mobile application and led a team that developed the app from scratch.
- Solved many code puzzles using object oriented programming and test driven development.
- Developed a much deeper knowledge of team dynamics and interpersonal relationships.
- Learned to develop, publish, and share open source software.

Wireless Consultant
Verizon: The Cellular Connection

Gahanna, OH
Nov 2015 to Jan 2016

- Learned to use proprietary sales tracking software including FIveStar and Zoho CRM.
- Consistently drove sales to over 100 new and current customers each month.

Sales Consultant
MarketSource, Inc

Dublin, OH
Jun 2015 to Sep 2015

- Acquired a much deeper understanding of cellular devices and the cellular industry.
- Created and maintained a neat, organized, and stable area in a fast-paced work environment.

Sales Associate
Micro Center

Columbus, OH
May 2014 to May 2015

- Carried out regular cashier duties.
- Built a great amount of knowledge of computer parts, accessories, consumer electronics, networking systems, and more.
- Learned to troubleshoot various devices on the fly.
- Consistently exceeded $1500 in sales each day and built a reputation as one of the highest performing salespeople in my department.

Front Desk Assistant
The Ohio State University

Columbus, OH
Sep 2013 to Jan 2014

- Managed resident data in the student housing database.
- Empathized with residents and solved their problems as if they were my own.
- Assisted in planning community events.
- Assisted Resident Advisors and maintenance staff with the upkeep of the building.

Electrical Sales Associate
Menards, Inc.

Columbus, OH
Mar 2012 to Jan 2013

- Received awards for outstanding customer service.
- Built, sold, and repaired electrical appliances.
- Became attuned to the needs of complete strangers by developing great listening skills and a heightened sense of empathy.
